Features

- Flexible to install into 1U and 2U racks; it fits into 1U when placed horizontally (only PC12U-200P-X2SH), 2U rack when placed vertically.
- Since the fan can be mounted to the side, it helps release the heat of CPU of the motherboard when installing PC12U-200P-X2SV into a 2U rack, which is suitable for economical design.
- PC12U-200P-X2SH is a rear fan type and the fan is located inside the equipment, which helps minimize the sound.
- Slow speed of fan even at standby (remote off) mode to reduce the heat of +5VSB.
- Double-sided through hole PCB suitable for industrial use.
