# Desktop PC Power Supply mNSP3-450P Series

# Medical Standard Approved. Min. Load Current at All Outputs: 0A. Large Capacity Nonstop Power Supply

Model	Description	Stock
mNSP3-450P-S20-H7V	With RS232C signal unit	Standard stock
mNSP3-450P-S20-H2V	With buzzer unit	Contact us
mNSP3-450P-S20-H6V	With USB signal unit	Standard stock
mNSP3-450P-S20-H0V	No signal unit	Standard stock
■Model Name Coding mNSP3 - 450 P - S 2 ① ② ③ ④ ⑤	2 0 - H * V 3. Peak output compliant 6. Modification code	8. Type of signal unit (2: buzzer unit, 6: USB signal unit, 7: RS232C signal unit, 0: no signal unit) edded 9. Silent type (thermal-sensing variable speed fan embedded)

### Features

- Medical standard IEC60601-1 2nd and 3rd (MOPP) approved
- CCC approved.
- With backup function, it protects your PC from blackout.
- Completely independent voltage-stabilizing circuit is mounted for all outputs (+12V constant voltage). Min. load current is 0A for all outputs.
- High capacity peak output: 450W
- By building in the thermal-sensing variable speed fan, noise reduction can be realised. Heat-related issue for CPU can be settled with fan speed changeover switch.
- Designed to last 10 years min. with continuous rated operation at 45°C.
- Output harnesses can be easily customized to meet various requirements.
- Signal unit and fan can be replaced.

#### Dimensions

Dimensione					
W×H×D (mm)	150×86×140 (PS/2 size)				
Output connector (optional component)					
Main Main Main AT AUX 12V Apin Bon 661- 661- 662- HDD S-ATA FDD					
Refer to p.33 "Detach	able Output Harness" for details				

( Refer to "Product Page Guideline" on p.11							
Safety standard / Approval	UL	CSA	EN	CE	CCC		
Reliability Grade	HFA	FA	HOA	OA			

#### Function

DC start 232C USE	B TTL PFC Silence
*RS232C: only mNS	P3-450P-S20-H7V
*USB: only mNSP3-	450P-S20-H6V

#### Automatic shutdown compliant OS

#### Input

AC input	85 - 264V (worldwide range)
	24V (dedicated battery package*)
*Battery package is c	ptional (sold separately).

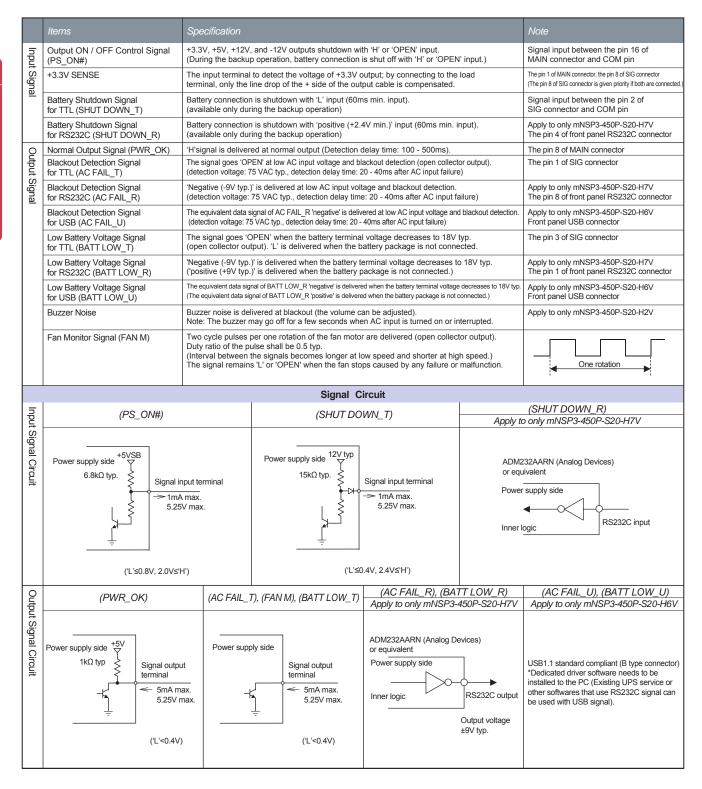

Output
